Product Update: GA700 High Frequency Solution

Dear Customer,

Yaskawa Europe is pleased to announce the official launch of the new High Frequency Solution for the GA700 series. This enhanced solution introduces several new features and performance improvements designed to support demanding high-speed applications:

- Output frequency up to 2000 Hz (for drives up to 103 A)
- On-the-fly control mode switching between Closed Loop Vector Control (up to 400 Hz) and V/f Control (up to 1000/2000 Hz)
- Support for V/f, Closed Loop Vector (CLV), and PM Open Loop Vector (PM OLV) control modes
- DriveWorksEZ support, enabling users to create custom logic and mathematical functions through the GA700's integrated control capabilities
- Two additional drive capacities: 371 A and 389 A

The new High Frequency Solution can be identified by the following model codes:

Up to 2000 Hz: CIPR-GA70C4xxxxxx-xxxxxC-9895

Up to 1000 Hz: CIPR-GA70C4xxxxxx-xxxxxB-9895

Further details can be found in the attached appendix.

As part of this product update, the new High Frequency Solution will replace the current GA700 High Frequency product. The following models will therefore be phased out:

CIPR-GA70Cxxxxxx-xxxxxB

We are confident that the enhanced features and performance of this solution will provide added value for your applications. Should you have any questions or require further information, please do not hesitate to contact your Yaskawa representative. We will be pleased to assist you.

Adrian Lischka
